Personal Testimony: NEVCO Products

TO WHOM IT MAY CONCERN:

As a nurse educator and scholar, I have known NEVCO and its products since 2002. I have reviewed NEVCO healthcare programs and found them very enriching. In addition, I have worked with NEVCO to develop a unique video program for international nurses interested in migrating to the U.S. and other Western countries. The program is called *Understanding Differences Between Eastern and Western Nursing*, which has been well-received.

NEVCO programs are known nationally in the U.S. and beyond for their content and quality. Many organizations recommend health care professionals to earn continuing education credits by using NEVCO programs. With a well-established reputation as a U.S.-based healthcare media company, I have no hesitation in recommending NEVCO programs to nurses and other healthcare professionals in the U.S. and other countries. I have personally adopted and promoted NEVCO programs in my own professional activities. I have no doubt that NEVCO will have continued success with its quality products both in the U.S. and beyond. These fine programs will continue to contribute to the education and training of healthcare professionals who will make a difference in patient outcomes with enhanced knowledge and skills.

Please feel free to contact me at (702) 895-3175 or via e-mail: yu.xu@unlv.edu if further testimony about NEVCO products is needed.

Sincerely

**Yu Xu, PhD, RN, CTN, CNE, FAAN
